**Special Inspection and Final Report**

**Special Inspection Final Report—Engineers of Record sign**

Project:

A complete report of testing shall be prepared by the required special inspector or special inspection agency. The report shall include identification of all devices by manufacturer, nameplate data, design values, measured values, and identification tag or mark. The report shall be reviewed by the responsible registered design professionals, and when satisfied that the design intent has been achieved, the responsible registered design professionals shall seal, sign and date to the report with a statement as follows:

I have reviewed this report and by personal knowledge and on-site observation certify that the smoke control system is in substantial compliance with the design intent, and to the best of my understanding complies with requirements of the code.
